

Application notes

Application Note : March 2021

Market involved : Car Parking Guidance

Product : UWP 3.0

Customer : Facility Manager

Subject : Saving time and energy costs for indoor car parks

CUSTOMER ISSUE :

The Facility Manager needs to revamp an indoor parking facility by adding a car parking guidance system and improving lighting control so as to reduce energy costs.

OUR SOLUTION :

The UWP 3.0 is the ideal solution to implement both car parking guidance and lighting control systems thanks to the powerful and effective mix of the Dupline® modules and DALI® compatibility.

BENEFITS :

- The Facility Manager can use the same system to deploy both car parking guidance and lighting control, saving time and money during the commissioning.
